Melissa –

As requested I will perform an ARARs review and provide you with a list. Please note that it will take me at least a few days to get back to you due to other obligations.

Thanks,

Bill

Good morning,

I have started drafting our action memo, basically the funding document for EPA to be able to repair the cap located in Minden, WV over the PCB contaminated soils and materials from the Shaffer Equipment Company Site. The proposed actions will include repair of the cap and increasing the size of drainage swales around the cap into Arbuckle Creek. Could you please let me know of the applicable state regulations for these actions, that need to be considered as ARARs.

Thank you,

Melissa Linden, OSC
